

## TESTIMONIAL

To Whom It May Concern:

RE: Testimonial about Mr Jason Armstrong regarding his conduct as a parent to Jared Armstrong his son and his daughter Tatjana.

I have known Mr Jason Armstrong since 1990 and as a father to his son I can unequivocally state that he has been an excellent father to his child Jared Armstrong, despite our being divorced and separated. He has always been caring, loving and kind toward Jared, paid his school fees, attended functions that he could where Jared was involved, and provided him with emotional and financial support wherever he could. I know that he saves money for him and has always cared for his health and is saving for his future studies after school. Jason has also always been with Jared in a good and healthy environment.

Even when Jason was living in Denmark previously, he flew Jared over for frequent visits so he could see him growing up. When Jared went to visit Jason in Denmark I never felt that it was unsafe and that Jason would keep Jared over there in Denmark. He always came back happy that he had seen and had been with his dad.

I can therefore state, based on Jason's previous behaviour towards myself and Jared over the years that Tatjana will be very safe with Jason if he decides to visit South Africa with her. I know that he will not abscond with her. That is an absurd assumption to make.

Yours Sincerely
